Not all these courses transfer equally well to the UW System. If transferability is a student's major goal, then verification of the transfer equivalency of each course prior to enrolling in the course would be very important. For up-to-date information on the transferability of a particular course to a UW System institution, please refer to the UW System's Transfer Information System website which is found at www.uwsa.edu/tis/ In addition, these courses may be reviewed in the future for their continued inclusion on a list of system-wide courses appropriately rigorous for post-secondary coursework.
