through

**WISCONSIN'S**

TECHNICAL COLLEGES

## YOU CAN

travel the world, gain critical global skills, and earn credit from your local technical college!

## EXPAND YOUR HORIZONS

Study abroad is an experience that not only provides you with "real world" competencies, but has the potential to change the way you see the world. Students who have participated in study abroad programs often note that the personal growth in confidence and understanding of themselves in relation to the world was as valuable as the content of their classes abroad.
