What were some of the transformations you have seen at your own colleges related to Guided Career Pathways and/or the Student Success Center? What were some key take aways from doing that work?

- WTC - We are implementing 7-week sessions. And we have incorporated the Scale of Adoption instrument into program and service evaluation self-studies.
- WCTC - Implemented degree audit tool upgrade. Started using GP as a driver for Student Services Assessment. Implemented 8-week calendar
- We revised our comprehensive program evaluation self-assessment survey to parallel with the scale of adoption
- Implemented a more holistic advising model
- Holistic approach to meeting the students where they are and meeting their needs
- Also at Mid-State, we've increased the number of K12 career pathways into, including a high school fire academy. At Mid-State, we implemented degree mapping software and also a program called Circle of Success.
- MPTC - Courseleaf implementation and Degree Works is being implemented. Referral system was upgraded. One year schedule was implemented. GCDF training for all of our advisors
- CVTC is implementing Degree Works and education plans
- GTC- Implemented co-requisite remediation in math and English, and require completion of first math and English courses in first year. Created full time and part time curriculum maps
- BTC uses Facilitating Career Development training. At BTC we began implementing use of Starfish, ARO sessions (onboarding students)

- Transfer programs that will enhance so many opportunities for learners, Focus on meeting students where they are, and providing scaffolding. Greater clarity and focused ways to make intentional improvements. I want to include the information in my Blackboard course shells, so students know what the focus is at the local and state level.

Resources in the chat

- Throughout the day, if you need to re-center and focus, try this [mini-mindfulness meditation from Headspace](#).
- CCRC [Ask-Connect-Inspire-Plan](#) framework
- JFF's [Guided Career Pathways](#) framework
- a helpful data resource for this - is the [Student Success Dashboard](#) that provides key early momentum metrics for students in their first year at your college/in their program. One of the metrics is the number of credits successfully completed in their first year.
- [Guided Pathways Resource Series](#) including this ROI model from NCII
- useful dashboard - [Opportunity Atlas](#) that shares data on equity and opportunity gaps in society
- for industry data in WI, check out [WisConomy from DWD](#) and here is a [training video](#) for this dashboard
- [MATC's Career Hub Website](#)
- [Ruffalo Noel Levitz](#) (e.g., coaching model shared from Nicolet College)
- [Tia Brown McNair](#) (e.g., speaker/consultant shared from NWTC)
- [Achieving the Dream Conference](#) Feb. 14-17, 2023 in Chicago
- Exit ticket: <https://forms.office.com/r/NXLJHAXbbd>

Collaborative Padlets

- [Reflection Padlet](#) on Rob Johnstone's presentation and the Student Success Center
- [College Team Next Steps padlet](#)

Presentations

- [WTCS slides](#) with information on the Student Success Center and Guided Career Pathways
- [Dr. Rob Johnstone's slides](#) on the Value Proposition of Guided Career Pathways

Recordings

- [WTCS Student Success Center and Dr. Rob Johnstone's presentation](#)
- [College Panel](#)
- [Closing Remarks](#)
