## Purpose

The Student Success Dashboard offers a summary of key performance indicators (KPIs) like retention rates, GPA, and credit momentum, which are linked to student program completion. It breaks down data by student populations (e.g., race/ethnicity, disability, economic disadvantage) to identify equity gaps. The dashboard also includes college benchmarking for sharing best practices within the WTCS community, promoting student success locally and statewide. It helps evaluate outcomes and the impact of larger college initiatives like guided career pathways.

## Overview of Key Performance Indicators

The WTCS Business Intelligence Cross-functional Team identified the key performance indicators that are included in the College-wide Student Success Dashboard. These indicators are: (1) program completion, (2) 2.0 GPA or greater, (3) fall to spring retention, (4) general education course completion, and (5) new program students by successful post-secondary credits completed (i.e., early credit momentum). For a more detailed description of each indicator, please see the [business rules](#) at the end of this document.

These indicators can help assess college-wide reform that may influence student success (e.g., implementing early-alert programs or intensive student supports in general education gatekeeper courses). These indicators can be measured in just one year, allowing for quick feedback and evaluation of institutional reforms. In addition, the dashboard allows for assessing first-time college student experiences in their first year. These indicators can be thought of as ‘**early-momentum**’ metrics. Research suggests that these early-momentum metrics are highly correlated with long-term student outcomes, i.e., program completion (Jenkins & Bailey, 2017).

Filter Prompt	Option	Count
Is First-Time College ... is True	Select all	
	False	128
Is Program Student is True	Select all	
	False	128

*To replicate the early momentum indicators within the dashboard prompts, select “True” for both the “Is First-Time College Student” and “Is Program Student” filters.*

### Importance of the Key Performance Indicators:

**% of Students with a 2.0 GPA or Greater:** For a student to remain eligible for financial aid, one of the requirements of satisfactory academic progress is maintaining a cumulative GPA of a 2.0 or better. Students who are unable to maintain financial aid may be at risk of dropping out.

**% of Students Retained from Fall to Spring:** Research suggests that first-time program students who maintain enrollment from fall to spring have higher rates of attaining a credential compared with students who do not maintain fall to spring enrollment in their first year (Belfield, Jenkins, & Lahr, 2016). This indicator also encourages colleges to monitor enrollment and offer courses based on students’ academic plans.

**% of Gatekeeper Courses Successfully Completed** i.e., general education course completion: Research suggests that program students who passed a college-level math or English course in the first

year are more likely to complete a credential compared with students who did not pass a college-level math or English course in their first year (Calcagno, Crosta, Bailey & Jenkins, 2007; Denley, 2016). The indicator also helps colleges monitor the guiding of students to enroll in the appropriate math and English courses based on the college placement process. The indicator can also provide insight into the importance of integrating academic support into gatekeeper courses.

**% of Students Accumulating Postsecondary Credit:** Research suggests that first-time program students who complete more credits in their first year have higher rates of attaining a credential compared with students who complete fewer credits in their first year (Attewell & Monaghan, 2016). In addition, program students who complete more credits in their first year paid less for their degree in tuition and fees (Belfield, et al., 2016).

## Dashboard Filters

Within the filters pane on the right side of the dashboard, users can filter the data across the dashboard with the following options:

- **Academic Year:** the academic year a student outcome is calculated and allows for longitudinal trending. On Program Completion Pages, this is the year the students are identified as a new program student.
- **District Name** allows for selection of a particular college or the entire WTCS system.
- **Race/Ethnicity:** American Indian or Alaskan Native, Asian, Black or African American, Hispanic or Latino, Native Hawaiian or Other Pacific Islander, Not Reported (unknown), Two or more races, White
- **Gender:** Female, Male, Unknown
- **Student with a Disability:** Disclosed Disabled (student has a reported disability), No Disclosed Disability and Unknown
- **Is First-Time College Student:** False (the student was enrolled in FTE generating courses at the college for at least one semester within the prior four years), True (the student was never enrolled in FTE generating courses in the college in the prior four years)
- **Is Program Student:** False (the student has not declared a program in the academic year assessed), True (the student has declared a program in the academic year assessed; programs include program aid codes: 10-Associate degree, 20-Liberal arts, 30-Short-term technical diploma, 31-One-year technical diploma, 32-Two-year technical diploma, 50-Apprenticeship, or 61-WTCS pathway certificate)
- **Economic Disadvantage:** the student is Pell-eligible and/or a member of a household that is struggling to afford one or more basic living needs.
- The 'Aligned General Education Completion' pages also include a '**Course Number and Title**' filter.

## Dashboard Slicers

On the Program Completion Pages, users can select the number of years in which to assess graduation rate from 1 to 6 years.

On the 2.0 GPA or Greater Pages, users can select the GPA threshold that students must meet to be a part of the metric (percent of students with a GPA at or above threshold) from 2.0 to 3.5.

## Dashboard Page Format: System-wide Overview Pages

System-wide overview pages allow for benchmarking across WI Technical Colleges. This example highlights Program Completion (others include: 2.0GPA or Greater, Fall to Spring Retention, & Aligned General Education Course Completion).

The data for the **system-wide overview** are shown as a series of bars. Each bar represents the percent of students who have (in this example) completed a program within 3 years for a given college in a particular academic year. When hovering your mouse over the bar, the tooltip will appear and also display the number of students assessed in the KPI. For details on how the KPI is calculated please refer to either the 'Information' Page within the dashboard or the [Business Rules](#) section of this manual.

The bars are color coded based on the KPI value with light gray for lower values and medium blue for higher values.

The dashed vertical line displays the average level for the KPI for all data displayed on the page. In the example above, this would include the graduation rate data for all WI Technical Colleges for the selected academic years (2019-2022).

## Dashboard Page Format: Student Demographic Pages

Student characteristic pages allow for identifying equity gaps across student populations. This example highlights Program Completion (others include: 2.0GPA or Greater, Fall to Spring Retention, & Aligned General Education Course Completion).

The lines show the KPI for each student population over the selected academic years. When hovering your mouse over the bar, the tooltip will appear and also display the number of students assessed in the KPI and the student population. For the visuals that have different colored lines, see the legend directly above for identifying which line color corresponds to which student population. For details on how the KPI is calculated please refer to either the 'Information' Page within the dashboard or the [Business Rules](#) section of this manual.

The dashed horizontal line displays the average level for the KPI for all data displayed in the data visual (i.e., combination of all student groups in the visual across all selected academic years).

On the Demographics Pages, users can toggle between different student populations for each visual using the toggle buttons directly above the visual. The selection for each button will then automatically sync with the other student demographic pages.

- Top left: Race/Ethnicity or Educational level of parent
- Top right: Academically disadvantaged or Economically disadvantaged
- Bottom left: Gender or Student with Disability
- Bottom right: Single Parent or Veteran Status

## Aligned General Education Courses

For the 'Aligned General Education Course Completion' and 'Aligned General Education by Demographics' pages, the tooltip will also display a 'drill through' option to the 'Aligned General Education Courses' page. Using this drill through option will apply the filters from the main page to the detailed page that displays data by the aligned general education course number.

Once on the detailed page (shown below), you can use the back arrow button (top left) to get back to the prior page. You can also clear the drill through filters using the green reset button.

Percent of aligned general education course enrollments with a passing grade.									
Academic Year	2019		2020		2021		2022		Total
Instructional Area Code	Percent Passing	Num Enrollments	Percent Passing	Num Enrollments	Percent Passing	Num Enrollments	Percent Passing	Num Enrollments	Percent Pass

10-804-196	73.8%	141	69.1%	152	70.4%	186	72.5%	142	71.0%
Total	73.1%	104253	73.0%	103658	71.6%	100531	71.4%	93088	72.0%

The Aligned General Education Courses page provides the percent of course enrollments that resulted in a passing grade by course instructional area and number. The cells are color coordinated with light gray corresponding with low passing rates and medium blue corresponding with high passing rates.

## Business Rules

Indicator	Definition/Calculation	Notes
<p><b>Program Completion</b></p> <p>Percent of new program students who graduated from/completed any WTCS approved program</p>	<p><b>Denominator:</b> Number of new program students (not reported in any program in the prior four years) who were enrolled in an FTE generating post-secondary course during fiscal year 20XX</p> <p><b>Numerator:</b> Of those in the denominator, the number of program students who graduated from/completed any WTCS approved program within X number of years (e.g. for 3rd year program completion, the denominator would be tracked three years to see if the student completed any WTCS approved program during academic year 20XX, 20XX+1, and 20XX+2)</p>	<p>Post-secondary courses include course aid codes 10-Associate, 20-Liberal Arts, 30-Short-term Tech, 31-One-year Tech, 32-Two-year Tech, and 50-Apprentice</p> <p>Program students included those reported in program aid codes 10-Associate, 20-Liberal Arts, 30-Short-term Tech, 31-One-year Tech, 32-Two-year Tech, 50-Apprentice, and 61-Pathway Certificates</p> <p>Data Source: Client Reporting System</p>
<p><b>2.0 GPA or Greater</b></p> <p>Percent of students who have a 2.0 GPA or greater at the end of the academic year</p>	<p><b>Denominator:</b> Number of students with known post-secondary course grades earned (grades A, A-, AB, B+, B, B-, BC, C+, C, C-, CD, D+, D, D-, DF, F)</p> <p><b>Numerator:</b> Of the students in the denominator, the number who have a cumulative GPA of a 2.0 (or other selected threshold) or greater at the end of the academic year</p>	<p>Post-secondary courses include course aid codes 10-Associate, 20-Liberal Arts, 30-Short-term Tech, 31-One-year Tech, 32-Two-year Tech, and 50-Apprentice</p> <p>Pass/fail grades and withdrawal grades are not included in the calculation</p> <p>Cumulative GPA data are calculated within the academic year and not summarized from all years a student is enrolled</p> <p>Data Source: Client Reporting System</p>

Indicator	Definition/Calculation	Notes
<b>Fall to Spring Retention</b>  Percent of students retained in courses from the fall semester to the spring semester or who graduate from/complete any WTCS approved program within the year	<b>Denominator:</b> Number of students who were enrolled in an FTE generating post-secondary course during the fall semester of the fiscal year  <b>Numerator:</b> Of those in the denominator, the number of students who graduated or completed a WTCS approved program in the academic year or who were enrolled in an FTE generating post-secondary course during the spring semester of the academic year	Post-secondary courses include course aid codes 10-Associate, 20-Liberal Arts, 30-Short-term Tech, 31-One-year Tech, 32-Two-year Tech, and 50-Apprentice  Data Source: Client Reporting System
<b>General Education Successful Course Completion</b>  Percent of WTCS System-wide General Education courses successfully completed by students	<b>Denominator:</b> Number of known post-secondary course grades earned in WTCS System-wide General Education courses (all grades A, A-, AB, B+, B, B-, BC, C+, C, C-, CD, D+, D, D-, DF, F, PP, FF and withdrawals)  <b>Numerator:</b> Of the course records in the denominator, the number of successful course grades earned (numerical value of 2.0 or higher or a PP grade in pass/fail courses)	Post-secondary courses include course aid codes 10-Associate, 20-Liberal Arts, 30-Short-term Tech, 31-One-year Tech, 32-Two-year Tech, and 50-Apprentice; only courses with a Course Completion Status of 01-Pass, 02-Fail, and 04-Withdrawal are included; only FTE generating courses are included  Data Source: Client Reporting System

## Glossary

- **Academically Disadvantaged:** students who are enrolled in Adult Education courses to brush up on skills (e.g., reading, math, writing)
- **Economic Disadvantage:** the student is Pell-eligible and/or a member of a household that is struggling to afford one or more basic living needs.
- **Education Level of Parent:** highest degree earned by either parent
  - Not reported
  - None: no high school diploma or equivalent
  - High school diploma or equivalent
  - Associate Degree, including diplomas and certificates
  - Bachelor's degree
  - Master's or Doctoral degree

- **Gender:** Female, Male, Unknown
- **Is First-Time College Student:** False (the student was enrolled in FTE generating courses at the college for at least one semester within the prior four years), True (the student was never enrolled in FTE generating courses in the college in the prior four years)
- **Is Program Student:** False (the student has not declared a program in the academic year assessed), True (the student has declared a program in the academic year assessed; programs include program aid codes: 10-Associate degree, 20-Liberal arts, 30-Short-term technical diploma, 31-One-year technical diploma, 32-Two-year technical diploma, 50-Apprenticeship, or 61-WTCS pathway certificate)
- **Race/Ethnicity:** American Indian or Alaskan Native, Asian, Black or African American, Hispanic or Latino, Native Hawaiian or Other Pacific Islander, Not Reported (unknown), Two or more races, White
- **Single Parent:** A single, separated, divorced, or widowed individual who has primary responsibility for one or more dependent children under age 18. This includes single pregnant women.
- **Student with a Disability:** Disclosed Disabled (student has a reported disability), No Disclosed Disability and Unknown
- **Veteran Status:** Students who are not reported as a veteran (No/Not reported), students who are reported as a veteran who is receiving veteran benefits (Yes – Receiving Benefits), and students who are self-reported as a veteran but are not receiving veteran benefits (Yes – Self Reporting, Not Receiving Benefits)
