Curriculum Data System

The Wisconsin Technical College System (WTCS) Curriculum Data System houses the current curricula of WTCS Board approved programs. Each of the sixteen Wisconsin Technical Colleges (collectively “districts”) is required to upload a curriculum file to the WTCS Curriculum Data System that contains information for all courses that comprise the curriculum for each program. The uploaded electronic files are reviewed for approval by WTCS Education Directors to ensure they meet WTCS Office business rules. Colleges are required to submit a curriculum for all programs having Aid Code 10* (Associate of Applied Arts or Associate of Applied Science), Aid Code 11 (Advanced Technical Certificate), Aid Codes 30, 31, or 32 (Technical Diplomas), Aid Code 50 (Apprenticeship) and Aid Code 61 (WTCS Pathway Certificate). No curriculum file is permitted for programs having Aid Code 20 (Associate of Arts or Associate of Science).

*Curriculum submission is not required for select Aid Code 10 programs:

10-499-5 Technical Studies – Journey Worker

Individualized Technical Studies:

- 10-825-1 Undefined Individual Technical Studies
- 10-825-18 Agriculture, Food and Natural Resources
- 10-825-2 Architecture and Construction
- 10-825-3 Arts, Audio-Visual Technology, and Communications
- 10-825-4 Business, Management and Administration
- 10-825-5 Education and Training
- 10-825-6 Finance
- 10-825-7 Government and Public Administration
- 10-825-8 Health Sciences
- 10-825-9 Hospitality and Tourism
- 10-825-10 Human Services
- 10-825-11 Information Technology
- 10-825-12 Law, Public Safety and Security
- 10-825-13 Manufacturing
- 10-825-14 Marketing, Sales and Service
- 10-825-15 Science, Technology, Engineering and Mathematics
- 10-825-16 Transportation, Distribution and Logistics

Submissions to the WTCS Curriculum Data System are accepted throughout the year except during times needed for routine maintenance and two freeze periods, Fiscal Year Close (July 1st – July 31st) and the first week of September.

Chapter 1: General Information

Aid Code Definitions

[The Educational Services Manual](#) (The ESM) website contains the Aid Codes Definitions document that defines Aid Codes and the courses within each Aid Code. Districts are encouraged to reference this document when developing curricula.

Portal Access

Districts have access to curriculum files through the web-based WTCS Portal. Districts are encouraged to use this resource when they have questions about the curricula and transactions submitted in the Curriculum Data System. The Portal allows for viewing of individual curriculum. The information accessed by the web-based inquiry function is the same information reviewed by the Education Directors for approval. For additional information on accessing the Portal, contact your College Information Officer or the WTCS Office staff identified at the beginning of this manual.

Directions for getting access to the Portal:

<https://mywtcs.wtcsystem.edu/data-systems-grp/data-access>

Portal Location: <https://apps.wtcsystem.edu/wtcs-web/>

File Upload Errors

Curriculum must comply with WTCS policies and business rules. Files submitted to the Curriculum Data System will be edited before being accepted in accordance with the edit errors and warning section of this manual. The editing process ensures college data meets with WTCS policies, which can be found in the [Educational Services Manual](#) (ESM) at <https://mywtcs.wtcsystem.edu/>.

All records in error or that cause a warning will be displayed on the Curriculum Approval Edit Results Reports with the corresponding error/warning message. Rejected record files and error reports are available for viewing in the WTCS Portal. All rejected records must be corrected and resubmitted to the WTCS Office.

Record type abbreviation, data element field position numbers, and data element names indicate which fields in which records are being edited. All these fields will be marked on the error reports and posted in the WTCS Portal. All error/warning reports will include the error/warning number and the record(s) and position(s) with the error.

Out of Compliance

A curriculum will be identified as Out of Compliance by the system when it no longer adheres to the rules outlined in WTCS Office of Instruction policies found in the Curriculum Manual and Educational Services Manual (ESM). The system will specify the exact reason(s) why the

curriculum has been flagged as Out of Compliance. These compliance checks are triggered either by file upload errors or by violations of relational rules.

File Upload Error #	File Upload Error Title	Short Description
7	INV Program Number	The program number must be a WTCS program in approved or suspended status at the submitting district. Curriculum will not be accepted for programs in discontinued status.
9	INV Dist Crs Credits	The course credit(s) must match the credit(s) on file in the Course Approval data system.
20	Curr Crs has CEC	A curriculum course cannot have a course exception code.
24	Crs Not on ASGEC	For courses with <i>Course Function in Program Code</i> 06, 15, 16, 17, 18, or 19 (General Studies), the <i>Course Number</i> must be an approved <i>Course Number</i> found on the list of Aligned Systemwide General Education courses.
32	INV Aligned Curr Course	Aligned Curriculum course does not match the course credits or function in program code in the assigned aligned curriculum.
41	INV ETD Crs	Embedded Technical Diploma (<i>Program Aid Code</i> 30, 31, 32) curriculum must contain parent program primary courses only.
43	ETD Parent Program Curr Not Approved	For Embedded Technical Diploma (<i>Program Aid Code</i> 30, 31, 32) curriculum, the parent program's curriculum must be in approved status.
45	INV Path Crs	WTCS Pathway Certificate (<i>Program Aid Code</i> 61) curriculum must be developed from parent program primary courses only. No parent program alternate courses are allowed.
46	INV Path Crs Term	WTCS Pathway Certificate (<i>Program Aid Code</i> 61) curriculum must be developed from the two first <i>Terms</i> (<i>Term</i> 01 or 02) of parent program primary courses only. No courses from other <i>Terms</i> are permitted.
48	Path Curr - Parent Program Curr Not Approved	Pathway Certificate (<i>Program Aid Code</i> 61) curriculum must be developed from parent program's curriculum in approved status.

50	SP – Pri College Curr Not Approved	If a primary college’s curriculum has not been approved, the cooperating college(s) curriculum file will be rejected until the primary college’s curriculum is approved.
58	Inv Dist Crs	The curriculum course must exist in the Course Approval data system.

The following are additional relational rule checks for Out of Compliance.

Curriculum Out of Compliance #	Out of Compliance Title	Short Description
001	Disapproved Course in Curriculum	Curriculum is out of compliance if it contains a disapproved course.
002	Discontinued Program’s Curriculum Must be in Disapproved Status	When a program is discontinued, the curriculum is out of compliance if it is not in disapproved status.
003	Course Credit Value Change	Curriculum is out of compliance if a curriculum’s course credits do not match the credits in the Course Approval data system. Has the course value changed.
004	Primary Curriculum is not in Approved Status	When a Shared Primary’s curriculum is disapproved, the Cooperating District’s curriculum is out of compliance.
007	Shared Agreement Added	When a shared agreement is added, the Cooperating District’s curriculum is out of compliance until it is resubmitted according to the shared agreement.
008	Course Not in Parent Program’s Curriculum	If a course in an Embedded Technical Diploma or Pathway Certificate’s curriculum is removed from the parent program’s curriculum, the Embedded Technical Diploma or Pathway Certificate’s curriculum is out of compliance.
009	PWC Course not in First Two Terms of Parent	If a course in a Pathway Certificate’s curriculum is not in the first or second term of the parent program, the curriculum is out of compliance.
010	Parent Curriculum not in Approved Status	When a parent program’s curriculum is disapproved, the Embedded Technical Diploma or Pathway Certificate’s curriculum is out of compliance.

Prior Curriculum Records

When a curriculum file is uploaded, passes edits and is acted upon by an Education Director, it will supersede the last version on file. The last version on file will be maintained for comparison purposes (and old versions for historical records).

Curriculum Changes

To ensure the Curriculum Data System accurately reflects the current curriculum of a program, any time there is a change in the curriculum of the program, the revised curriculum must be submitted. Please see the ESM for more information on changes to a curriculum.

Curriculum Courses

The WTCS Office approves all courses via the Course Approval Data System. Prior to the submission of a curriculum file, all curriculum courses must be uploaded to the course approval data system. Courses do not need to be in approved or 1-year approved status before uploading the curriculum file, but they do need to be on file, and can be in any status, including “pending.” A pending curriculum file will not be made available for Education Director approval until all courses have been uploaded (and consequently, have passed all course edits).

Most postsecondary courses (Aid Codes 10, 30, 31, 32, and 50) are required to be included in an approved curriculum unless the course is submitted with a Curriculum Exception Code in the Course Approval System. See the Course Approval Data System Manual for additional information on Curriculum Exception Codes.

The cooperating college in a shared program agreement only submits the courses that are shared as part of the agreement.

Impact of Course Records on Curriculum

Uploading a new course to the Course Approval Data System does not have an automatic impact to a curriculum file. In order to pick-up the change in the corresponding curriculum, a new curriculum file must be submitted to the Curriculum Data System. Courses are always submitted before curriculum so new curriculum files must be submitted after all courses have been submitted.

When to submit a curriculum file:

1. When a new program is added.
2. When a curriculum course has been added or deleted.
3. When a curriculum course has been revised.
4. Anytime there is a change to the curriculum.
5. After all curriculum courses have been submitted.

Multiple Year Curriculum Processing

For half of the year, there will be two open fiscal years colleges can submit records to. In January of each year the upcoming fiscal year is opened. The Fiscal Year is included in positions 20-23 of all curriculum submission records. Multi-year processing allows districts to submit curriculum for approval for the current and upcoming fiscal year.

Changes to a curriculum that impacts both open fiscal years must be submitted twice, once for each open fiscal year.

Aligned Curriculum

Changes to, or the addition of, an aligned program curriculum will be made once annually. After the close of the previous fiscal year file August 31, the Curriculum data system will freeze the first week of September when no curriculum records will be accepted from the colleges. During this time, WTCS Education Directors will create and/or revise aligned program curriculum templates (see ESM – Chapter 17 for more details on Aligned Programs).

For all curriculum impacted by changes, the previous curriculum will be removed from the system. Colleges are required to submit a new curriculum file to align with the new/revised aligned program curriculum configuration.

Rollover

Course and Curriculum rollover is an automated process completed in the first half of January each year. The rollover process opens the next fiscal year's file so colleges can begin uploading files for the upcoming fiscal year while replicating the current year's courses and curricula into the following fiscal year. The replicating of courses and curriculum saves districts from having to resubmit courses and curriculum that have not changed and continue to meet WTCS Office business rules.

Any changes to WTCS business rules for courses and curriculum are typically enforced in the rollover process by editing new fiscal year submissions and preventing rollover of old fiscal year records that are no longer in compliance.

Before rollover occurs, districts have access to a variety of reports and tools designed to help them prepare. The following reports and searches provide critical data and outline what should be addressed prior to rollover.

- Out of Compliance – Course Report
- Out of Compliance – Curricula Report
- Orphaned Courses Report
- Courses with Curriculum Exception Codes Report
- Advanced Curriculum Search using the Contains Course with Status filter set to 1 Year Approved

Reviewing these reports and searches to identify items that need to be resubmitted will help ensure a smooth rollover process and minimize issues with course and curriculum data.

What happens to certain curricula at rollover is detailed in the chart below. Please note that additional items may be addressed during rollover that are not currently listed; any such updates will be communicated to districts in advance.

Data Provided Made Available to Districts in Advance of Rollover	At Rollover	Actions to Correct Before Rollover	Other Comments
Curricula in approved status and in compliance	Roll to approved		
Curricula in approved status and out of compliance	Roll to disapproved	Work with Education Director and resubmit curriculum if full approval appropriate.	Review the “Out of Compliance – Curricula” Report to see why courses are out of compliance.
Curricula in pending status and in compliance	Roll to pending		Work with Education Director to have the curricula reviewed in both fiscal years.
Curricula in pending status and out of compliance	Roll to disapproved	Work with Education Director and resubmit curriculum if full approval appropriate.	Review the “Out of Compliance – Curricula” Report to see why curricula are out of compliance.
Curricula in disapproved status	Roll to disapproved	Work with Education Director and resubmit curriculum if approval is appropriate.	
Curricula in 1-year approval status	Roll to disapproved	Work with Education Director and resubmit curriculum if full approval appropriate.	

Data Provided Made Available to Districts in Advance of Rollover	At Rollover	Actions to Correct Before Rollover	Other Comments
Curricula that contains a course in 1-year approval status	Roll to disapproved	Work with Education Director and resubmit course if full approval is appropriate.	The course with 1-year approval will roll to disapproved status. As a curriculum cannot contain disapproved course(s), the curriculum will also roll to disapproved status.
Curricula with courses that contain inactive material fee categories	Roll to disapproved	Resubmit the course with the appropriate material fee category.	
Curricula in inactive instructional area(s)	Do not roll	Work with Education Director to resubmit the program in a new instructional area if appropriate.	As the instructional area is inactive and not rolled to the new fiscal year, district programs, courses, and curricula in that instructional area do not roll.

Fiscal Year Close

The Course and Curriculum Data Systems freeze district uploading on July 1. Education Directors have until July 15 to approve changes or work with the Colleges on modifying their requests. On July 31, the Course and Curriculum Data Systems close for the fiscal year, meaning no additional changes can be made.

Districts must review courses identified as out of compliance and take the appropriate action(s) to bring the course into compliance with the WTCS policies. If the necessary adjustments are not made, these curricula will be set to Disapproved at the end of the fiscal year.

Aligned Systemwide General Education Courses

WTCS aligned systemwide general education courses are required for use in Applied Associate Degree program curriculum (Aid Code 10) as general studies credits. A current list of aligned systemwide general education courses can be found on the [ESM page](#).

Program and Curriculum Status Impact on Client Reporting

Client will only accept records for programs in Approved or Suspended status with curricula in Approved or 1-Year Approved status. Client records will not be accepted for curricula in Pending or Disapproved status or for programs in Discontinued status.

Chapter 2: Record Submission Format

Curriculum records are the individual lines of code submitted by the district where each line of code represents a single course within a curriculum. Example:

```

Curriculum records are submitted via text files to the WTCS Portal through the File Uploader:

Upon submission, curriculum record files are identified with the prefix “CUR”:

Job Id	File Name	Environment	Date Submitted	Status	Lines in File	Errors	Alerts	Warnings
29031	cur08full2021prod072420v0c4.txt	PROD	07/24/2020 02:57:11 PM	Complete	16	0	0	0

All submissions to the Curriculum Data System must follow the data rules below. In addition, the uploaded file must comply with the following naming convention:

For full curriculum file uploads: CURXXFULLZZZZ (XX=District Number / ZZ = Fiscal Year)

Example: CUR01FULL2020

For partial curriculum file uploads: CURXXPARTZZZZ (XX=District Number / ZZ = Fiscal Year)

Example: CUR04PART2021

The “position” is the place in the text file where each data element is coded/represented.

- 09 = Ninth term for five-year programs including apprenticeship
- 10 = Tenth term for five-year programs including apprenticeship
- 99 = Required Special Provision (for apprenticeship only)

13- 20 Primary Course Number

The *Course Number* is a unique number for each course taught at the districts.

13-14 *Course Aid Code*

15-17 *Course Instructional Area Number*

18-20 *Course Sequence Number*

The *Course Sequence Number* must be numeric.

Elective courses should have the course number of 10-899-XXX, where xxx = a number designated by the district, and use Function in Program Code of 4. For example, 10-899-101 will be accepted as an elective course with a valid term and a *Function in Program Code* of 4.

21- 24 Fiscal Year

The four-digit *Fiscal Year* of the record being submitted. For example, the 2020-21 *Fiscal Year* will be 2021.

Format = 9999

Only two *Fiscal Years* will be open at any one time. Immediately after rollover, these years will be the current and forthcoming *Fiscal Year*. After August 15 of each year, the previous *Fiscal Year* will be closed.

25-26 Course Function in Program Code

The *Function in Program Code* specifies the course function within the program.

a) Associate of Applied Science/Arts programs (*Aid Code* 10)

- 04 = Elective
- 06 = General Studies
- 07 = Technical Studies

- 15 = General Studies Communications
- 16 = General Studies Social Science
- 17 = General Studies Behavioral Science
- 18 = General Studies Quantitative Reasoning
- 19 = General Studies Natural Sciences

b) Advanced Technical Certificate (*Aid Code 11*)

- 01 = Occupational specific
- 02 = Occupational supportive
- 08 = Advanced Technical

c) Technical Diploma programs (*Aid Codes 30, 31, and 32*)

- 01 = Occupational specific
- 02 = Occupational supportive

d) Apprenticeship programs (*Aid Code 50*)

- 04 = Elective

10 = **Apprenticeship System-wide Curriculum Standard (ASCS)**

Utilized when district utilizes exact curriculum documented in WIDS. (These documents are the foundation for the 5-year cyclical review of all apprenticeship programs. 95% of all apprenticeship programs have a documented ASCS in the WIDS Repository.)

11 = **ASCS – District Variant**

Utilized when district assigns their own course titles/numbers in lieu of those contained in WIDS. If opting to do so, District must maintain crosswalk of local course title/number to ASCS course title/number. If credit loading between courses differs as well, District must maintain competency level crosswalk across all courses.

12 = **Apprenticeship Concurrent Degree Aligned**

Utilized when aid 50 program is aligned as a “degree apprenticeship” to a TD or AAS credential award program

13 = **Apprenticeship No ASCS - District Curriculum Only**

No ASCS exists for program even if program offered at more than one college. Consequence is district must maintain local documentation of course competencies, hours, etc. This includes when industry opts out of allowing documentation of what they perceive as proprietary curriculum.

14 = **Apprenticeship District Level BAS Contract Provision**

Utilized when an RA program is offered at more than one college, but BAS develops customized local contracts at request of industry that typically exceed the minimum standard i.e. local employers want more courses and hours of related instruction.

- e) WTCS Pathway Certificates (*Aid Code* 61)
 - 01 = Occupational specific
 - 02 = Occupational supportive

27-30 Credits

The number of *Credits* of the course used in this curriculum. The number of *Credits* in the curriculum file must match the *Credits* in the course file.

Format = 99v99 (v=decimal point. Decimal point not reported.)

Examples: A three credit course is reported as 0300

A .25 credit course is reported as 0025

This must be numeric.

See Edit No. 40 for the table of curriculum credit distribution compliance rules later in this document (maximum, minimum and total credit counts) for different types of programs based on *Program Aid Code*.

31-46 Alternate Course Number

The *Alternate Course Number* is a course that may be substituted for the primary course in the curriculum pursuant to the ESM guidelines for use of alternate courses.

Courses with *Aid Code* 20 can only be used as alternate courses in a curriculum.

The alternate courses must be numeric.

There is a limit of two alternate courses for a single primary course.

Leave *Alternate Course Number* blank if there is no alternate course.

31-38 *Alternate Course Number 1*

- 31-32 *Course Aid Code (of the Alternate Course 1)*
- 33-35 *Instructional Area Number (of the Alternate Course 1)*
- 36-38 *Course Sequence Number (of the Alternate Course 1)*

39-46 *Alternate Course Number 2*

- 39-40 *Course Aid Code (Alternate Course Number 2)*
- 41-43 *Instructional Area Number (of the Alternate Course 2)*
- 44-46 *Course Sequence Number (of the Alternate Course 2)*

47-80 Blank

Chapter 3: Curriculum Upload Edit Errors and Warnings

Curriculum Data System records will be edited before being accepted for the WTCS Office's file in accordance with the edits in this section. The editing process ensures district data meets with WTCS Office business rules. WTCS Office business rules can be found in the Educational Services Manual (ESM) at <https://mywtcs.wtcsystem.edu/>.

It is important to note that files which fail to upload correctly are not submitted for edit checks and will not appear in the Curriculum Approval Edit Results Reports. These failures typically occur when a file is uploaded to the wrong system (e.g., a curriculum file uploaded to the course system), or when the file name does not follow the required format.

All records in error or that cause a warning will be displayed on the Curriculum Approval Edit Results Reports with the corresponding error/warning message. Rejected record files and error reports are available for viewing in the WTCS Portal. All rejected records must be corrected and resubmitted to the WTCS Portal.

If there is a record in a file upload with an edit error, that specific record will be rejected. All records in the file upload that pass edits will be accepted.

Record type abbreviation, data element field position numbers, and data element names indicate which fields in which records are being edited. All these fields will be marked on the error reports produced by the Curriculum Approval editor and posted in the WTCS Portal. All error/warning reports will include the error/warning number and the record(s) and position(s) on the record(s) with the error.

Supplemental Information: This warning addresses two potential situations. First, the cooperating college must offer the exact course(s) as the Primary district, unless substitutions are approved by Primary college and the WTCS Education Director and reflected on the shared program agreement. Course is defined by matching course title, number, and credit value. While substitution courses may be allowed, a cooperating college cannot offer additional courses to augment the primary college's curriculum.
